As community leaders, we focus on bringing awareness to the importance of water education and safety. Our technicians are happy to provide pool owners with a basic overview of their equipment and upkeep also labeled as our Pool School 101. The pool scout's team is also available to teach classes about water safety to HOAs, Real Estate Agents, and other organizations to decrease childhood drowning within Alabama. Our education highlights that drowning is one of the leading causes of death for children. Four-sided barriers around household pools at home reduce childhood drowning by 83%. Pool Scouts wants to partner with the community to ensure our children are safe.

Already a community pillar, Pool Scouts is a member of the Huntsville, Decatur, Athens-Limestone Chambers of Commerce, Better Business Bureau, and Association of the United States Army as a Community Partner.
